Going Green

From the very inception of mansio we have been trying to ensure that we have as little impact on the environment as possible. It is very important to conserve what we are able to enjoy for future generations. An exciting new challenge for us recently has been applying for a [Green Tourism Award](#).

At present we already use low energy lighting, encourage recycling, make use of organic cottons and environmentally friendly cleaning products and work with local suppliers for many of our services. We are looking forward to working closely with GTBS to further our efforts. Don't miss the next issue to find out what grading we receive!

In House Treats

According to our customers, one of the key selling points for mansio is the variety of In-house guest services on offer. Mansio has teamed up with local deli restaurant Delivino to provide you with a mouth-watering in house dining menu to enjoy during your stay.

We are also delighted to introduce our naturally relaxing range of in-house wellbeing treatments designed to offer maximum relaxation. Incorporating Eve Taylor Botanicals you can unwind and enjoy these fantastic treatments in the comfort and privacy of your own holiday apartment. (Please note these in-house treatments are currently only available in our country apartments and are subject to availability).
